The exhibition showcasing the two artists Antoinette Wysocki from New York along with designer Piecco Pang from Hong Kong, who have come together to not only show their art but also create ready to wear art pieces in the form of evening clutches. Their love for fashion, function and art, created a unique collection of clutches that are one of a kind pieces just like the painting they were birthed from. After years of collaborations, they created limited edition handbags, designed by Pang, that feature abstract paintings created by Wysocki which will debut at Pro Art Gallery Dubai.

The exhibition will open on Wednesday 5th June 2013 at 7 P.M, and will run till 20th June 2013 at Pro Art Gallery located at the Palm Strip Shopping Mall on Beach Road, Jumeirah 1.
