Adam Bricusse

Bricusse's work is inspired by an eclectic melange of imagery and diverse cultural forces incorporating Lovers and Fighters, Animals, Ancient Warriors , Pirates , Gypsies and Circus Freak Show images . Combat and love are common themes, with other-worldly Beasts and Guardians confronting each other in inverted, often mimetic, symmetry His most recurring and all-encompassing theme "The Reflection of Opposites" A never-ending face-off of all the conflicting elements of life , representing love and destruction , violence and passion. There is a voyeuristic element to Bricusse's work , inviting the viewer to travel beyond the cracked surfaces and luscious glazes of the paintings into the allegory he wants you to see and remember . The work is steeped in metaphors of life's extremes, allowing one to linger for a moment in their romantic and sensuous ideal where there is peace after madness , and the mysteries within become externalised, an invitation to enter a sublime world of fantastic reflection.
